# Smart Cups

## Disposable range

Looking for faster, cleaner and more efficient solutions for all your applications, the smart cups range is the solution to all your needs. Sames offers you disposable cups to make your life easier for mixing, spraying and cleaning.

With the **Sames** Smart Cups range, paint mixing and spraying become a real pleasure while simplifying the cleaning and conservation of paints. No more need to transfer your products into different containers, use the same liner to mix, apply, store/dispose without splashing. Developed for frequent color changes, the Smart Cups solution reduces cleaning time and solvent use.

The disposable cup attachment system is perfectly adapted to our guns, allowing use in any position without the risk of dripping.

Compatible with the FPro G, FStart G, S3 G and M22 G and even with competitor's guns thanks to the different adaptors, the Smart Cup range is a unique solution for all your jobs.

This range has been developed to improve productivity and quality in order to meet the expectations of every painter.

## Performance

- 1 Built-in filter available with 190µm or extra fine 125µm
- 1 Conical design to improve flowrate and reduce dead zone
- 2 The liner collapses evenly while spraying: stable fluid delivery and possibility to spray in all directions and to check the paint level
- 3 Spherical bottom creates vortex when stirring for proper paint mixing
- 4 Selection of ultra-light adaptors
- 4 Perforating tool inside the adaptor: paint flows only when the cup is on the gun
- 5 Reusable and graduated mixing cup with mix ratio scales

## Productivity

- 1 Membrane in the lid to avoid leak even when the cup is upside down
- 2 Two sizes of liner available to maximize your savings
- 2 Ergonomic design : liner is lighter than normal cup
- 2 Single-use cup to avoid contamination and for frequent color change
- 6 Fast locking system: only 2 clips
- ♦ Mix, spray and store in the same cup
- ♦ Wall dispensers available to store all accessories at the same place and at eye level

## Sustainability

- 2 Liner material compatible with a large range of materials
- 7 Unitized lid and liner assembly: eliminate the hazard of coming apart during disposal
- 8 Sealing plug to protect the paint for later use
- ♦ Designed for frequent color change and an easy cleaning
